SEASIDE UTOPIA

At Playa Vik José Ignacio, six uniquely decorated casas provide a private and beautiful home away from home. Located along the Uruguayan coastline near Punta del Este, the art-filled abodes surround a two-story sculpture building designed by Uruguayan architect Carlos Ott. Works by contemporary artists and designers from Uruguay and around the world are showcased at the retreat, making Playa Vik José Ignacio a haven for design-forward international travelers.

Along with eye-catching elements like hand-painted floors, elaborate murals and sculptures, guests enjoy access to prime beachfront property and a vast wine cellar, 75-foot cantilevered pool, game room, spa, gym and seaside restaurant. playavik.com
